

# Tobacco Testing

Our N Good Health employee wellness program offers many ways to participate and earn program activity points.

You'll earn 125 points for a negative tobacco test. Once you have a negative test on record with N Good Health, you will not need to repeat the test each year. The points will be automatically awarded to you!

Tobacco testing is a screening for nicotine in the urine. This screening can be completed as part of your N Good Health physical with a Norton Healthcare provider.

If you see a provider who's not employed by Norton Healthcare for your annual N Good Health physical, choose one of the locations listed below to have your test done. Otherwise, you may be billed for the test.

## Note:

- If you self-report tobacco use, do not complete a tobacco test.
- As a tobacco user, you can earn N Good Health program activity points for completing a tobacco cessation program each year.
- Visit **NGoodHealth.com** for more information.

### Participating Norton Immediate Care Centers

Call the location in advance to ensure you can be seen in a timely fashion.
